**SKU:** Aluminium Brazing Flux

**Price:**

**Stock:** instock

**Categories:** [Aluminium Brazing Flux](#), [Brazing Wires and Flux](#), [Welding Consumables](#), [Welding Filler Wires](#)

### Product Description

Aluminium Brazing flux is a powder type flux for braze welding /brazing of copper alloys, carbides, carbon & galvanized steels. This is useful for torch, induction or furnace heat brazing. Also used when brazing with low fuming bronze, nickel bronze and brass brazing alloy. Residues can be easily removed. This gives high fluxing activity with good wetting and spread and gives nice visibility while brazing. (no sodium glare).
