### Product Description

E308LT1-1/4 is an all-position, flux-cored wire designed for MIG/MAG welding of low carbon 18%Cr-8%Ni stainless steels including AISI 304, 304L, 304LN, ASTM A157 Gr. C9; A320 Gr. B8C or D. It may also be used for welding types 321 and 347 if service temperature does not exceed 500°F (260°C). This wire provides excellent weldability and increased creep resistance at elevated temperatures.
